CP10 Scoring Sheet

One row per project · three columns live, the rest from the plan and the cp10 tag · transfer to the Canvas rubric in SpeedGrader

CRITERION	WT	4 · EXEMPLARY	3 · PROFICIENT	2 · DEVELOPING	1 · BEGINNING
MVP plan quality *carried over*	15	In + deferred named, corners labeled; risk tied to evidence; ranked claims, falsifier, script, fallback · 15 pts	All four parts; claims or fallback thin · 11.25 pts	Features without claims, nothing deferred, or no fallback · 7.5 pts	Missing, or a wish list · 3.75 pts
Proves key claims (slice) *live*	25	Whole slice walks on real code + data; each claim proven or honestly not · 25 pts	Walks with a gap or two; main claim proven · 18.75 pts	Parts don't connect; screens with nothing behind · 12.5 pts	Nothing walks end to end · 6.25 pts
Technical coherence *from the tag*	15	As designed, or every departure recorded; organized; ≥ 1 test on core logic · 15 pts	Mostly as designed; a departure unrecorded · 11.25 pts	Code and design tell different stories · 7.5 pts	No relation to the design · 3.75 pts
Demo readiness *live*	15	Claim first, smooth, in time, honest edge, direct answers (or calm fallback) · 15 pts	Minor hiccups or loose frame; or a declared clip run calmly (cap) · 11.25 pts	Rough: over time, unframed, or a failure with no fallback · 7.5 pts	No demo · 3.75 pts
Repo audit *live*	15	Builds, runs, finds the starter-issue code unaided, as written · 15 pts	Minor friction; a small guess or workaround · 11.25 pts	Steps missing or wrong; the way in unclear · 7.5 pts	Can't build or run from the docs · 3.75 pts
Documentation & honesty *from the tag*	10	Known issues: corners, cuts, bugs; README status true; claims match code · 10 pts	Limitations documented; a gap or two · 7.5 pts	Thin; a known limitation unsaid · 5 pts	Nothing documented, or claims the code can't support · 2.5 pts
Individual contribution *from the tag*	5	Solo: steady, reviewable PRs across the fortnight · 5 pts	Steady, with one or two oversized PRs · 3.75 pts	Most of the work in a final burst · 2.5 pts	Little or none visible · 1.25 pts

		CARRIED OVER	LIVE, IN CLASS		FROM THE CP10 TAG, AFTER CLASS

5	time ____ : ____	☐	☐	☐	☐	☐	☐	☐		

Boxes take a level, 4–1 (0 = absent). Points = weight × level ÷ 4, the small numbers above; Canvas does the math. **Plan** comes from the revision scored the week before. A declared clip caps **Demo readiness** at 3 unless the room failed. For the **Repo audit**, use the auditor's sheet and your own repeat of the hardest step; discount stalls a reasonable newcomer wouldn't hit. A test on the slice's core logic is needed only for a 4 in **Technical coherence**. Demo Feedback Sheets go to the presenters; the grade is yours.
