

Pitch Build Sheet

Name _____

You are **not making slides right now**. You are deciding **what the pitch says** — the words, the one piece of evidence, and the ask. Slides are tonight's job, and they go faster once these four boxes are full. **6–8 minutes, Wed, Oct 7.**

1 • The five beats — write the claim, keep the budget

Problem & who has it

~90 sec

Solution, shown concretely

~90 sec

Why it's feasible

~2 min

Why it's worth joining

~90 sec

The ask

~30 sec

The usual failure: five minutes on the problem, thirty seconds on feasibility. The budget is the defense.

2 • One piece of evidence for beat 1 — the line you'll say out loud

A number, a quote, or something you observed. If it contains "many," "most," or "often," it isn't evidence yet.

3 • The ask — word for word, so it doesn't evaporate at minute six

"I'm looking for _____ teammates; the first thing we'd build together is _____"

4 • Slide list — titles only, 5–7. What is each slide for?

1	_____	4	_____
2	_____	5	_____
3	_____	6	_____

Next: stand up and deliver beats 1–3 to your partner, ~3 min, against the clock. **Tonight:** rehearse twice out loud, then build the slides.
